SENIOR SHOWCASE

MAY 29, 2026 | BOURNS COLLEGE OF ENGINEERING

The Senior Design Showcase is the Marlan and Rosemary Bourns College of Engineering (BCOE)'s premier capstone event at University of California, Riverside, celebrating the culmination of our engineering students' academic journeys. This annual showcase highlights innovative, industry-driven projects developed by senior design teams who have spent the year applying their technical expertise to solve real-world challenges.

The event brings together students, faculty, alumni, and industry partners for an engaging exhibition of prototypes, research, and applied engineering solutions across disciplines—including robotics, clean energy, advanced manufacturing, biomedical devices, artificial intelligence, cybersecurity, sustainable infrastructure, and more. Each project reflects hands-on experience in design, collaboration, systems integration, and project management, demonstrating students' readiness to contribute immediately in professional engineering environments.

For sponsors, the Senior Design Showcase offers direct access to a diverse and highly skilled pipeline of emerging engineering talent. Your organization will gain meaningful brand visibility on campus, opportunities to interact one-on-one with student teams, and insight into innovative solutions aligned with industry needs. By supporting the Showcase, your company demonstrates its commitment to advancing engineering education, fostering innovation, and investing in the next generation of technical leaders.

2026 SPONSORSHIP OPPORTUNITIES

Premium: \$5,000

- **Keynote Session and Lunch Sponsorship:** Opportunity to introduce and speak at the keynote lunch.
- **Lunch Company Video:** Your company video playing during lunch.
- **Premium Exhibit Space:** Priority location for your booth at the event, ensuring maximum visibility. Premium booth
